Filtering your CLOSER Discovery search by study

September 2023
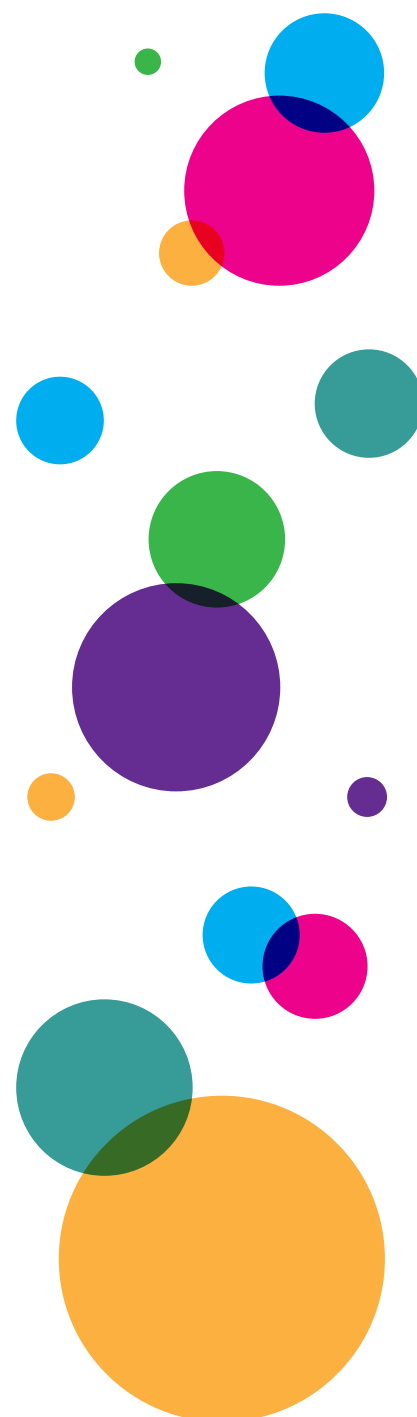

Learn how to find information about a variable from a particular study

CLOSER is funded by:

Economic and Social Research Council

How do I…
- **find information about a variable from a particular study?**
  - i.e. within-study cross-sectional data
  - e.g., "information on anxiety in the National Child Development Study"

Note that examples are illustrative. Content is continuously being added and improved.

Enter a search term (e.g., "**anxiety**") in the **Search query** box. The dropdown indicates that you are searching for **Variables**. Press enter or click **Search**.

Questions

On the search results page, filter the **Study** by selecting "**National Child Development Study**" and click **Filter**.

Study

National Child Development Study (20) ⌄

Life Stage — None selected ⌄

Topic — None selected ⌄

Filter

- ☐ 1970 British Cohort Study (2)
- ☐ Avon Longitudinal Study of Parents and Children (225)
- ☐ Health and Employment After Fifty (0)
- ☐ Hertfordshire Cohort Study (1)
- ☐ Millennium Cohort Study (4)
- ☑ National Child Development Study (20)

The results show variables which have the search term (e.g., **anxiety**) in the variable name, variable label, related question, or CLOSER topic (if there is one). Locate and click on the relevant variable.

Variable **CIS-R: How long have you felt like this**

Study:	National Child Development Study
Sweep:	Age 44 Biomedical Survey (2002)
Dataset:	NCDS Biomedical Interview (2002) Dataset
Name:	ANXI

This will open that variable's description page.

ANXI

NCDS Age 44 Biomedical Questionnaire

367 questions before…

ANXH
Have you felt anxious/nervous/tense for more than 3 hours in total on any one of the past seven days?

Show 2 Codes ⌄   Source question

ANXI
How long have you had these feelings of general anxiety/nervousness/tension as you described?

Show 5 Codes ⌄

PHOBA
Sometimes people avoid a specific situation or thing because they have a phobia about it. For instance, some people avoid eating in public or avoid going to busy places because it would make them feel nervous or anxious. In the past

About CLOSER

CLOSER, the home of longitudinal research, is the interdisciplinary partnership of leading social and biomedical longitudinal population studies, the UK Data Service and The British Library. We are funded by the Economic and Social Research Council (ESRC).

CLOSER works to increase the visibility, use and impact of longitudinal population studies, data and research to ensure that longitudinal evidence is used to address the health, social, economic and environmental challenges facing the UK, now and in the future.
